

PROgress

The Luther Street Medical Centre Social Prescribing Service

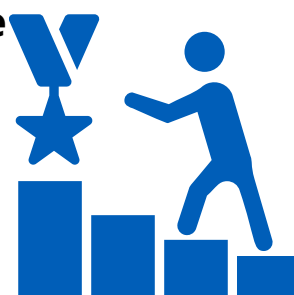

How we can help you...

FIRST: Our Social Prescribers will spend time with you exploring what matters to you and identifying what your goals are.

NEXT: They'll work with you to help you achieve them. Your goals may be to live a **healthy & active life**, **explore the arts**, identify **support services**, assist with **housing, benefits, ££££ financial support**, gain **employment** or explore **training** and **volunteering** options

Supporting you every step of the way...

Social prescribers can support you to make contact with services and can accompany you to activities until you feel confident in going alone.

AND FINALLY: We can support you to create something new if the kind of service or support you are looking for isn't out there already.

Get in touch

Refer yourself to our service or get a professional/carer to

01865 901571 **ismcreception@oxfordhealth.nhs.uk**
